mat white

# ALLUMINIO & ACCIAIO ALUMINIUM & STEEL

## FINITURE OPACHE EFFETTO SABLÉ

realizzate con vernici epossidiche a polvere fuse sul metallo a 180°. Un procedimento dove la vernice penetra nei pori del metallo garantendo un ancoraggio perfetto e grande resistenza alle abrasioni.

## SANDBLASTED MAT FINISHINGS

obtained by melting powdered epoxy varnish on the metal at temperature of 180°. Thanks to this process, varnish penetrates deep into the cavities of the material to ensure perfect fixing and effective resistance.
